## Statement of intent

### Identified barriers to educational achievement

Maslow's Hierarchy of school needs outlines the essential needs that are required for positive learning.

A child's availability to learn depends largely on their motivation, their personal desire to achieve results and improve our knowledge, regardless of the material being studied, is one of the most important factors in our ability to learn.

#### a. Self-actualization / Motivation to learn

- A lack of motivation is a major barrier to a child's learning, as without the desire to achieve there is no desire to learn
- Previous negative experience of education, first hand or parental impacts on levels of motivation and attendance

#### b. Esteem needs / Self-esteem

- Low levels of language and skill impacts on levels of esteem and worth

#### c. Belongingness / Relationships

- A lack of positive relationships with peers and adults impacts on engagement and learning

#### d. Safety needs / Emotional safety

- Low levels of confidence and the ability to take risks impacts on learning

#### e. Physiological needs / Physical wellbeing

- Acceptable living and sleeping conditions impact on children's learning
- A balanced diet, and regular nutritious meals impact on children's readiness to learn

Our ultimate objectives are that disadvantaged pupils achieve as well, if not better than other pupils.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	To improve consistency in approach of teaching and learning across the school, resulting in raised attainment and progress
2	To improve resourcing in literacy and numeracy, particularly in reading
3	To improve achievement and participation for disadvantaged pupils
4	To close the gap between levels of attainment and National Expectations, for disadvantaged pupils
5	To remove barriers to learning for disadvantaged pupils, resulting in raised attainment and improved levels of progress

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.
